Friday- 1 v1 with finishing. group play

Dear families of the Mad River Youth Soccer League,

We are proud to announce that summer soccer camps are being offered exclusively to registered CYSA players. These camps focus on the skill development of the individual in a relaxed, and fun environment. Recreation players, first time young players, and experienced competitive players are all encouraged to attend. Staff includes some of the best youth soccer coaches and early childhood education teachers in Humboldt County. For anybody who loves the game, it is an opportunity to come play, learn, and have fun!

Yours in soccer,

The Mad River Soccer Family

Soccer is a skill based sport. To develop elite soccer technique is like learning to master the piano or guitar, it takes time. By practicing and learning individual soccer skills within a relaxed and guided atmosphere, players can develop in a non-competitive way. Mad Skillz Soccer Camp is not "team" training or "tactical" training, instead its focus is on the one variable that anyone can improve on, technique. Groups of U-6, U-8, U-10, U-12, and U-14 players will learn soccer skills in stages with a how, when, and where approach.
